

# Continuous Quality Improvement Training Series

## FAMILY HOME VISITING

Are you looking to deepen your understanding of continuous quality improvement (CQI) in family home visiting? Would you like to expand your knowledge of process improvement strategies and tools? Are you eager to lead and support CQI initiatives within your agency? Register for the Minnesota Department of Health (MDH) virtual training series on CQI!

Register by April 8 at [family home visiting continuous quality improvement training series registration](#). Contact [health.FHVcqi@state.mn.us](mailto:health.FHVcqi@state.mn.us) with questions.

## Objectives

---

- Understand CQI principles and frameworks
- Learn tools for root cause analysis and problem-solving
- Gain skills in process mapping and workflow optimization
- Increase knowledge of data collection, analysis, and interpretation

## Who should attend?

---

- Family home visitors
- Team leaders and supervisors
- Data and evaluation staff
- Parent leaders
- Staff at MDH-funded agencies who want to learn more about process improvement

## 2026 session dates

---

Two cohorts are scheduled for 2026. Participants should plan to attend all six sessions of one cohort. Sessions will be held virtually via Microsoft Teams on Tuesdays from 10-11 a.m.
