<sup>I</sup> Cases reported to the MDH, assumed to be alive, and currently residing in Minnesota as of December 31, 2024.

<sup>II</sup> HIV/AIDS prevalence rate calculated by dividing the total number of prevalent cases in a stratum (e.g persons aged 20-24 years) by the estimated population for that stratum and multiplying by 100,000. Population estimates are based on 2022 CDC Wonder Data.

<sup>III</sup> Residence information missing for 11 persons living with HIV and 1 person living with AIDS.

<sup>IV</sup> Age missing for 8 persons living with HIV and 0 persons living with AIDS.

Suburban = Seven-county metropolitan area except Minneapolis & St. Paul (Anoka, Carver, Dakota, Hennepin (except Minneapolis), Ramsey (except St. Paul), Scott, and Washington counties). Greater Minnesota = Remaining 80 counties outside of the 7-county metropolitan area.

Numbers exclude federal and private prisoners, but include 6 state prisoners, 156 refugees in the HIV-Positive Refugee Resettlement Program, and 143 additional refugees/immigrants with HIV infection prior to resettling in Minnesota.

Percentages may not add to 100 due to rounding.

<sup>I</sup> Cases reported to the MDH, assumed to be alive and currently residing in Minnesota as of Dec. 31, 2024.

<sup>II</sup> African-born Black people are reported separately from other Black people (born in the U.S. or elsewhere). "Other" includes multi-racial people and people with unknown race.

<sup>III</sup> Rates calculated using CDC Wonder -- 2022 data. The population estimate for African-born persons was calculated by the Minnesota State Demographic Center. The population estimate for Black, non African-born persons (288,832) was calculated by subtracting the U.S. Census estimate for African-born persons (134,282) from the total Black population (423,114). Note that this assumes that all African-born persons are Black (as opposed to another race).

<sup>IV</sup> Race/ethnicity are missing for 0 persons living with HIV(non-AIDS) and 0 persons living with an AIDS diagnosis

MSM = Men who have sex with men. IDU = Injecting drug use. For females: heterosexual contact with a male known to be HIV+, bisexual, an injecting drug user, or a hemophiliac/blood product or organ transplant recipient. Perinatal = Mother to child HIV transmission. Other = Hemophilia patient/blood product or organ transplant recipient. Unknown risk = Unreported or unknown risk.

Numbers exclude federal and private prisoners, but include 6 state prisoners, 156 refugees in the HIV-Positive Refugee Resettlement Program, and 143 additional refugees/immigrants with HIV infection prior to resettling in Minnesota.

Percentages may not add to 100 due to rounding.
