Request for Waiver

Plan Year: **2024**

Please ensure that information contained on this waiver request coincides with information provided on the geographical access maps and provider list submitted with this application.

1. Name and Title of Person Submitting this Document:

Carrier	Name Network	Network ID	Reason Code 4: Network Structure*
HealthPartners, Inc.	Apex	MNN015	<select one>
Name	Title	Date	Reason Code 4: Enrollees in Network*
Martin Michael	Sr. Director Provider Relations & Network Management	5/9/2023	

2. By submitting this form, the above-referenced confirms:

- A. That person submitting this request has personal knowledge of the network contracting process involved in this submission; and
- B. That access cannot be met for the following provider type(s). Include the county and reason(s) for not meeting the requirements.

Provider Type	County	Reason Code	Notes	Affected Enrollees*	Percent Not Covered*
<i>General Hospital facilities</i>	<i>Becker</i>	<i>1</i>	There is a gap in northeast part of Becker County. HealthPartners contracts with all known providers in this county. The county is rural, and the hospitals available do not cover the entire area using the 30 mile distance criteria. If members need hospital services, they have to travel more than 30 miles in these areas. ENROLLEE ACCESS TO SERVICES IN 2024: Provider clinics or outreach locations: For office visits, consultations (including pre and post-op visits) or telemedicine visits, large care systems in the area include Essentia Health, Carris Health, Sanford Health and Tricounty. In addition to the large care system's own locations, they often provide outreach services at smaller provider groups in the area. Network Review: We reviewed our networks in March, May, and August. Sources used to check for new providers/locations • Healthgrades • Medicare Physician Compare https://www.medicare.gov/hospitalcompare/ • Minnesota Health Care Programs Provider Directory http://mhcpproviderdirectory.dhs.state.mn.us/ • National Institute of Health US National Library of Medicine MedlinePlus Directories New providers identified: No additional providers were identified.	<i>28</i>	<i>8</i>

<p>General Hospital facilities</p>	<p>Freeborn</p>	<p>1</p>	<p>There is a gap in southeast part of Freeborn County. HealthPartners contracts with all known providers in this county. The county is rural, and the hospitals available do not cover the entire area using the 30 mile distance criteria. If members need hospital services, they have to travel more than 30 miles in these areas.</p> <p>ENROLLEE ACCESS TO SERVICES IN 2024: Provider clinics or outreach locations For office visits, consultations (including pre and post-op visits) or telemedicine visits, large care systems in the area include Allina Health, Olmsted Health and Winona Healthcare System. In addition to the large care system's own locations, they often provide outreach services at smaller provider groups in the area.</p> <p>Network Review: We reviewed our networks in March, May, and August. Sources used to check for new providers/locations</p> <ul style="list-style-type: none"> • Healthgrades • Medicare Physician Compare https://www.medicare.gov/hospitalcompare/ • Minnesota Health Care Programs Provider Directory http://mhcpproviderdirectory.dhs.state.mn.us/ • National Institute of Health US National Library of Medicine MedlinePlus Directories 	<p>238</p>	<p>73</p>
<p>General Hospital facilities</p>	<p>St. Louis</p>	<p>1</p>	<p>There is a gap in north part of St.Louis County. HealthPartners contracts with all known providers in this county. The county is rural, and the hospitals available do not cover the entire area using the 30 mile distance criteria. If members need hospital services, they have to travel more than 30 miles in these areas.</p> <p>ENROLLEE ACCESS TO SERVICES IN 2024: Provider clinics or outreach locations: For inpatient services, including hospital-based and substance use disorder services, there are large care systems and independent providers who are available to members. Large care systems in the area, who generally have their own hospitals and treatment facilities, include Essentia Health, Altru Health System and Clinics and Sanford Health.</p> <p>Network Review: We reviewed our networks in March, May, and August.</p> <p>Sources used to check for new providers/locations</p> <ul style="list-style-type: none"> • Healthgrades • Medicare Physician Compare https://www.medicare.gov/hospitalcompare/ • Minnesota Health Care Programs Provider Directory http://mhcpproviderdirectory.dhs.state.mn.us/ • National Institute of Health US National Library of Medicine MedlinePlus Directories 	<p>17</p>	<p>2</p>
<p>Primary Care providers</p>	<p>Freeborn</p>	<p>1</p>	<p>There is a gap in the east part of Freeborn County. HealthPartners contracts with all known providers in this county. The county is rural, and the mental health providers available do not cover the entire area using the 30 mile distance criteria. Members in this area generally have to drive more than 30 miles to a provider.</p> <p>HealthPartners also supports the use of telemedicine in these areas where no providers are physically present. HealthPartners has contracts with multiple telemedicine groups who provide additional access to primary care services if needed. There are approximately 5300 providers available.</p> <p>ENROLLEE ACCESS TO SERVICES IN 2024: Provider clinics or outreach locations: For office visits, consultations (including pre and post-op visits) or telemedicine visits, large care systems in the area include Allina Health, Olmsted Health and Winona Healthcare System. In addition to the large care system's own locations, they often provide outreach services at smaller provider groups in the area.</p> <p>Network Review: We reviewed our networks in March, May, and August.</p> <p>Sources used to check for new providers/locations</p> <ul style="list-style-type: none"> • Healthgrades 	<p>43</p>	<p>13</p>

<p>Primary Care providers</p>	<p>St. Louis</p>	<p>1</p>	<p>There is a gap in northernmost part St. Louis County. HealthPartners contracts with all known providers o in this county. The county is rural, and the primary care providers available do not cover the entire area using the 30 mile distance criteria. Members in this area generally have to drive more than 30 miles to a provider.</p> <p>HealthPartners also supports the use of telemedicine in these areas where no providers are physically present. HealthPartners has contracts with multiple telemedicine groups who provide additional access to primary care services if needed. Please use additional sheet if needed

***Only for Reason Code 4, Network Structure, Enrollees in Network, Affected Enrollees, and Percent Not Covered only needed if reason code is 4 and provider type is Primary Care, Pediatric Services Providers (Primary Care), General Hospital and Mental Health.**

As part of this waiver request for all reason codes, a carrier must demonstrate with specific data that the geographic access standards cannot be met in a particular service area or part of a service area and also state what steps were and will be taken to address the network inadequacy (MN Statutes § 62K.10, subdivision 5).

Reason Codes:

1. Carrier has conducted a good faith search for providers and determined that there are no providers physically present in the service area of the type requested in the waiver. MDH will not grant a waiver for this reason code unless the carrier demonstrates, with specific information, that there are no providers physically present in the part(s) of the service area for which the waiver is sought. Specific information may include provider directories and sources consulted, physical geography that affects the location of providers, or other information that affects the availability and location of providers. Telemedicine may be used as a means to provide access when there are no providers physically present to meet the standard. The carrier should describe how it will assess the availability of providers who begin practice in the service area where the standard cannot currently be met. State what steps will be taken to address the network inadequacy.
2. Provider does not meet carrier's credentialing requirements. Carrier must cite the reason(s) provider does not meet carrier's credentialing requirements. State what steps were and will be taken to address the network inadequacy.
3. Carrier has made a good faith effort to contract with provider and provider has refused to accept a contract. State what steps were and will be taken to address the network inadequacy.
4. **For all Reason Code 4, you must state the following information:**
 - a. Specify the network structure: ACO or Narrow Network. (In Section 1 above.)
 - b. State the total number of estimated enrollees in the network as of the submission date of waiver. (In section 1 above.)
 - c. State why the geographic access standards cannot be met. Explain why full geographic access is not possible with this network design.
 - d. State how access will be provided for this provider type for the enrollees of the affected county.

Additionally, for Reason Code 4, only for **Primary Care, Pediatric Services Providers [Primary Care], General Hospital and Mental Health provider types**, you must select only one county per line. See the Provider Network Adequacy Instruction for further direction. If the carrier would like to request a waiver for an additional county for the same provider type, they will need to add an additional line to allow for the specific additional information to be provided. For these same 4 provider types, the carrier must also complete the following fields:

- e. State the total number of estimated enrollees affected in the county not meeting the geographic standard as of the submission date of waiver.
- f. State the estimated percentage of area in that county that is not covered.

Attestation for the Request for Waiver

The undersigned attests that he/she is a representative of the carrier with personal knowledge of the network and reasons for the above waiver requests, and that the waiver requests meet the requirements for the waiver, as outlined above. The undersigned also attests that good faith efforts have been made to locate and contract with providers, as outlined above, and that if providers become available in the service area, carrier will make a good faith effort to contract with said providers.
