

Childcare Immunization Report: Vaccine Doses Guide

Minimum Immunization Requirements for Childcare in Minnesota

- Use this chart and the reporting worksheets to help complete the Childcare Immunization Report.
- Find the child’s age, and see if the child had the number of shots shown by the check marks under each vaccine.
- Rotavirus and flu vaccines are not required but are highly recommended for all infants and young children.

Doses required for children ages:

	Hepatitis B	DTaP/DT	Polio	Pneumococcal	Hib	MMR	Varicella	Hepatitis A
3-4 months	✓✓	✓	✓	✓	✓			
5-6 months	✓✓	✓✓	✓✓	✓✓	✓			
7-15 months	✓✓✓	✓✓✓	✓✓	✓✓✓	✓			
16-23 months	✓✓✓	✓✓✓	✓✓	✓✓✓	✓	✓	✓ ①	
24 mo-1st day of Kindergarten	✓✓✓	✓✓✓✓	✓✓✓		✓	✓	✓ ①	✓ ②

① If the child has already had chickenpox disease, varicella vaccine is not required. The child’s doctor must sign a form.

② Child must have one dose by age 24 months when enrolled in childcare. New enrollees 24 months or older must have one dose at time of enrollment.

Exemptions To enroll in child care in Minnesota, children must show they’ve had these immunizations or file a legal exemption. Parents may file a medical exemption signed by a healthcare provider or a non-medical exemption signed by a parent/guardian and notarized.

Looking for Records? For copies of immunization records, parents can talk to their doctor or call the Minnesota Immunization Information Connection (MIIC) at 651-201-3980.
