

## MnVFC Announcement

Date: January 15, 2026  
 To: MnVFC Providers  
 From: MnVFC Program  
 Re: **2026-27 MnVFC Pediatric Influenza Vaccine Prebook Timeline**

Please route to:

- Clinical supervisor
- Medical director
- Clinic manager
- Clinic staff
- Pharmacy
- Vaccine staff

MnVFC providers will be able to prebook influenza vaccine for the 2025-26 influenza season starting Thursday, Jan. 15. Prebook requests are due Jan. 30. Requests submitted after Jan. 30 will be considered late. Late requests can't be guaranteed and may arrive later in the season. Ordering for the current season (2025-26) will be temporarily unavailable while the 2026-27 prebook is open and will resume on Feb. 1.

### How to prebook influenza vaccine

MnVFC-enrolled providers will use the Minnesota Immunization Information Connection (MIIC) to prebook.

- Login to MIIC at [Minnesota Immunization Information Login \(https://miic.health.state.mn.us/miic\)](https://miic.health.state.mn.us/miic) between Jan. 15 and Jan. 30.
- Go to the **vaccine management** header on the left-hand side.
- Select **request special event vaccine**.
- From the **event dropdown** select **2026-27 MnVFC pediatric influenza vaccine prebook**. Verify that you are in the 2026-27 prebook event before submitting your request.

### Actions your site can take to prepare

- Determine who within your organization will prebook influenza vaccine in MIIC.
- Check with your vaccine ordering staff to see if they have a MIIC user role with ordering privileges. Login to MIIC and view your user role at the top of the home page. If your role ends with the words "with ordering" then you will have access to request influenza vaccine in MIIC.
- If you do not have a user role with ordering, consult with your MIIC administrator to update your role. Typically, there is a MIIC user at each site who is designated as a MIIC administrator. If you have an administrator role you can create user roles for your staff. Refer to [Managing Users \(www.health.state.mn.us/people/immunize/miic/train/admin.pdf\)](http://www.health.state.mn.us/people/immunize/miic/train/admin.pdf) for more information.
- If you do not have staff with that role, contact [health.mnvfc@state.mn.us](mailto:health.mnvfc@state.mn.us) for assistance.

### Influenza products available for prebooking via the MnVFC program for the 2026-27 season

Brand	Description	Age
FluMist	0.2mL single dose sprayer, 10 pack	2-49 years
Fluarix	0.5mL single dose syringe, 10 pack	6+ months
FluLaval	0.5mL single dose syringe, 10 pack	6+ months
Fluzone	0.5mL single dose syringe, 10 pack	6+ months
Fluzone High-Dose*	0.5mL single dose syringe, 10 pack	65+ years
