

What is MIIC?

The Minnesota Immunization Information Connection (MIIC) is a system that stores electronic immunization records.

What are the benefits of using MIIC?

Identify clients due or overdue for vaccination.

View comprehensive client immunization records.

Order vaccines for the Minnesota Vaccines for Children (MnVFC) and the Uninsured or Underinsured Adult Vaccine (UUAV) Programs.

Generate population-based assessment reports to monitor immunization rates and access tools for patient outreach.

Learn more about participating in MIIC at
(www.health.state.mn.us/people/immunize/miic/participate)
